## 2019 Preventive Schedule

**Effective 7/1/2019**

### PLAN YOUR CARE: KNOW WHAT YOU NEED AND WHEN TO GET IT

Preventive or routine care helps us stay well or finds problems early, when they are easier to treat. The preventive guidelines on this schedule depend on your age, gender, health and family history. As a part of your health plan, you may be eligible to receive some of these preventive benefits with little to no cost sharing when using in-network providers. Make sure you know what is covered by your health plan and any requirements before you receive any of these services.

Some services and their frequency may depend on your doctor’s advice. That’s why it’s important to talk with your doctor about the services that are right for you.

### Adults: Ages 19+

#### Male Female

##### General Health Care

- **Routine Checkup** *(This exam is not the work- or school-related physical)*
  - Ages 19 to 49: Every 1 to 2 years
  - Ages 50 and older: Once a year
- **Depression Screening**
  - Once a year
- **Pelvic, Breast Exam**
  - Once a year

##### Screenings/Procedures

- **Abdominal Aortic Aneurysm Screening**
  - Ages 65 to 75 who have ever smoked: One-time screening
- **Ambulatory Blood Pressure Monitoring**
  - To confirm new diagnosis of high blood pressure before starting treatment
- **Breast Cancer Genetic (BRCA) Screening** *(Requires prior authorization)*
  - Those meeting specific high-risk criteria: One-time genetic assessment for breast and ovarian cancer risk
- **Cholesterol (Lipid) Screening**
  - Ages 20 and older: Once every 5 years
  - High-risk: More often
- **Colon Cancer Screening** *(Including Colonoscopy)*
  - Ages 50 and older: Every 1 to 10 years, depending on screening test
  - High-risk: Earlier or more frequently
- **Certain Colonoscopy Preps With Prescription**
  - Ages 50 and older: Once every 10 years
  - High-risk: Earlier or more frequently
- **Diabetes Screening**
  - High-risk: Ages 40 and older, once every 3 years
- **Hepatitis B Screening**
  - High-risk
- **Hepatitis C Screening**
  - High-risk
- **Latent Tuberculosis Screening**
  - High-risk
- **Lung Cancer Screening** *(Requires prior authorization and use of authorized facility)*
  - Ages 55 to 80 with 30-pack per year history: Once a year for current smokers, or once a year if currently smoking or quit within past 15 years
- **Mammogram**
  - Ages 40 and older: Once a year including 3-D

---

* Routine checkup could include health history; physical; height, weight and blood pressure measures; body mass index (BMI) assessment; counseling for obesity, fall prevention, skin cancer and safety; depression screening; alcohol and drug abuse, and tobacco use assessment; age-appropriate guidance, and intimate partner violence screening and counseling for reproductive age women.
## Adults: Ages 19+

### Screenings/Procedures

<table>
<thead>
<tr>
<th>Screening/Procedure</th>
<th>Ages/Recommendations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Osteoporosis (Bone Mineral Density) Screening</td>
<td>Age 65 and older: once every 2 years. Younger if at risk as recommended by physician</td>
</tr>
</tbody>
</table>
| Pap Test | - Ages 21 to 65: Every 3 years, or annually, per doctor’s advice  
- Ages 30 to 65: Every 5 years if HPV or combined Pap and HPV are negative  
- Ages 65 and older: Per doctor’s advice |
| Sexually Transmitted Disease (STD) Screenings and Counseling (Chlamydia, Gonorrhea, HIV and Syphilis) | Sexually active males and females |

### Immunizations

<table>
<thead>
<tr>
<th>Vaccine</th>
<th>Ages/Recommendations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chicken Pox (Varicella)</td>
<td>Adults with no history of chicken pox: One 2-dose series</td>
</tr>
</tbody>
</table>
| Diphtheria, Tetanus (Td/Tdap) | • One-time Tdap  
• Td booster every 10 years |
| Flu (Influenza) | Every year (Must get at your PCP’s office or designated pharmacy vaccination provider; call Member Service to verify that your vaccination provider is in the Highmark network) |
| Haemophilus Influenzae Type B (Hib) | For adults with certain medical conditions to prevent meningitis, pneumonia and other serious infections; this vaccine does not provide protection against the flu and does not replace the annual flu vaccine |
| Hepatitis A | At-risk or per doctor’s advice: One 2 or 3 dose series |
| Hepatitis B | At-risk or per doctor’s advice: One 2 or 3 dose series |
| Human Papillomavirus (HPV) | To age 26: One 3-dose series |
| Measles, Mumps, Rubella (MMR) | One or two doses |
| Meningitis* | At-risk or per doctor’s advice |
| Pneumonia | High-risk or ages 65 and older: One or two doses, per lifetime |
| Shingles | • Zostavax - Ages 60 and older: One dose  
• Shingrix - Ages 50 and older: Two doses |

### Preventive Drug Measures That Require a Doctor’s Prescription

<table>
<thead>
<tr>
<th>Drug/Measure</th>
<th>Ages/Recommendations</th>
</tr>
</thead>
</table>
| Aspirin | • Ages 50 to 59 to reduce the risk of stroke and heart attack  
• Pregnant women at risk for preeclampsia |
| Folic Acid | Women planning or capable of pregnancy: Daily supplement containing .4 to .8 mg of folic acid |
| Raloxifene Tamoxifen | At-risk for breast cancer, without a cancer diagnosis, ages 35 and older |
| Tobacco Cessation (Counseling and medication) | Adults who use tobacco products |
| Low to Moderate Dose Select Generic Statin Drugs For Prevention of Cardiovascular Disease (CVD) | Ages 40 to 75 years with 1 or more CVD risk factors (such as dyslipidemia, diabetes, hypertension, or smoking) and have calculated 10-year risk of a cardiovascular event of 10% or greater. |

* Meningococcal B vaccine per doctor’s advice.
### Preventive Care for Pregnant Women

| Screenings and Procedures | • Gestational diabetes screening  
|                          | • Hepatitis B screening and immunization, if needed  
|                          | • HIV screening  
|                          | • Syphilis screening  
|                          | • Smoking cessation counseling  
|                          | • Depression screening during pregnancy and postpartum  
|                          | • Rh typing at first visit  
|                          | • Rh antibody testing for Rh-negative women  
|                          | • Tdap with every pregnancy  
|                          | • Urine culture and sensitivity at first visit  
|                          | • Alcohol misuse screening and counseling  

### Prevention of Obesity, Heart Disease and Diabetes

| Adults With BMI 25 to 29.9 (Overweight) and 30 to 39.9 (Obese) Are Eligible For: | • Additional annual preventive office visits specifically for obesity and blood pressure measurement  
|                                                                            | • Additional nutritional counseling visits specifically for obesity  
|                                                                            | • Recommended lab tests:  
|                                                                            | – ALT  
|                                                                            | – AST  
|                                                                            | – Hemoglobin A1c or fasting glucose  
|                                                                            | – Cholesterol screening  

### Adult Diabetes Prevention Program (DPP)

| Applies to Adults | • Without a diagnosis of Diabetes (does not include a history of Gestational Diabetes) and  
|                  | • Overweight or obese (determined by BMI) and  
|                  | • Fasting Blood Glucose of 100-125 mg/dl or HGBA1c of 5.7 to 6.4 percent or Impaired Glucose Tolerance Test of 140-199mg/dl.  
|                  | Enrollment in certain select CDC recognized lifestyle change DPP programs for weight loss.  

# 2019 Preventive Schedule

## PLAN YOUR CHILD’S CARE: KNOW WHAT YOUR CHILD NEEDS AND WHEN TO GET IT

Preventive or routine care helps your child stay well or finds problems early, when they are easier to treat. Most of these services may not have cost sharing if you use the plan’s in-network providers. Make sure you know what is covered by your health plan and any requirements before you schedule any services for your child.

It’s important to talk with your child’s doctor. The frequency of services, and schedule of screenings and immunizations depends on what the doctor thinks is right for your child.

## Children: Birth to 30 Months

</table>

*Routine checkup could include height and weight measures, behavioral and developmental assessment, and age-appropriate guidance; alcohol and drug abuse, and tobacco use assessment. **To confirm new diagnosis of high blood pressure before starting treatment. ***Hearing screening once between ages 11-14, 15-17 and 18-21. Vision screening covered when performed in doctor’s office by having the child read letters of various sizes on a Snellen chart. Includes instrument vision screening for ages 3, 4 and 5 years. A comprehensive vision exam is performed by an ophthalmologist or optometrist and requires a vision benefit. ****Must get at your PCP’s office or designated pharmacy vaccination provider. Call Member Service to verify that your vaccination provider is in the Highmark network. *****Meningococcal B vaccine per doctor’s advice.
### Children: 6 Months to 18 Years

<table>
<thead>
<tr>
<th>Preventive Drug Measures That Require a Doctor’s Prescription</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral Fluoride</td>
</tr>
<tr>
<td>For ages 6 months to 16 years whose primary water source is deficient in fluoride</td>
</tr>
</tbody>
</table>

### Prevention of Obesity and Heart Disease

- Children With a BMI in the 85th to 94th Percentile (Overweight) and the 95th to 98th Percentile (Obese) Are Eligible For:
  - Additional annual preventive office visits specifically for obesity
  - Additional nutritional counseling visits specifically for obesity
  - Recommended lab tests:
    - Alanine aminotransferase (ALT)
    - Aspartate aminotransferase (AST)
    - Hemoglobin A1c or fasting glucose (FBS)
    - Cholesterol screening

### Adult Diabetes Prevention Program (DPP) Age 18

- Applies to Adults
  - Without a diagnosis of Diabetes (does not include a history of Gestational Diabetes) and
  - Overweight or obese (determined by BMI) and
  - Fasting Blood Glucose of 100-125 mg/dl or HGBA1c of 5.7 to 6.4 percent or Impaired Glucose Tolerance Test of 140-199mg/dl.

- Enrollment in certain select CDC recognized lifestyle change DPP programs for weight loss.

### Women’s Health Preventive Schedule

<table>
<thead>
<tr>
<th>Services</th>
</tr>
</thead>
<tbody>
<tr>
<td>Well-Woman Visits (Includes: preconception and first prenatal visit, urinary incontinence screening)</td>
</tr>
<tr>
<td>Contraception (Birth Control) Methods and Discussion*</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Screenings/Procedures</th>
</tr>
</thead>
</table>
| Diabetes Screening    | • High-risk: At the first prenatal visit
                        | • All women between 24 and 28 weeks pregnant
                        | • Postpartum women without Diabetes but with a history of gestational diabetes |
| HIV Screening and Discussion | Allpartum women without Diabetes but with a history of gestational diabetes |
| Human Papillomavirus (HPV) Screening Testing | Beginning at age 30: Every 3 years |
| Domestic and Intimate Partner Violence Screening and Counseling | Once a year |
| Breast-feeding (Lactation) Support and Counseling, and Costs for Equipment | During pregnancy and/or after delivery (postpartum) |
| Sexually Transmitted Infections (STI) Discussion | All sexually active women: Once a year |

* FDA-approved contraceptive methods may include sterilization and procedures as prescribed. One form of contraception in each of the 18 FDA-approved methods is covered without cost sharing. If the doctor recommends a clinical service or FDA-approved item based on medical necessity, there will be no cost sharing.
Information About the Affordable Care Act (ACA)

This schedule is a reference tool for planning your family’s preventive care, and lists items and services required under the Affordable Care Act (ACA), as amended. It is reviewed and updated periodically based on the advice of the U.S. Preventive Services Task Force, laws and regulations, and updates to clinical guidelines established by national medical organizations. Accordingly, the content of this schedule is subject to change. Your specific needs for preventive services may vary according to your personal risk factors. Your doctor is always your best resource for determining if you’re at increased risk for a condition. Some services may require prior authorization. If you have questions about this schedule, prior authorizations or your benefit coverage, please call the Member Service number on the back of your member ID card.

Information About Children’s Health Insurance Program (CHIP)

Because the Children’s Health Insurance Program (CHIP) is a government-sponsored program and not subject to ACA, certain preventive benefits may not apply to CHIP members and/or may be subject to copayments.

The ACA authorizes coverage for certain additional preventive care services. These services do not apply to “grand-fathered” plans. These plans were established before March 23, 2010, and have not changed their benefit structure. If your health coverage is a grandfathered plan, you would have received notice of this in your benefit materials.
Discrimination is Against the Law

The Claims Administrator/Insurer complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. The Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex. The Claims Administrator/Insurer:

- Provides free aids and services to people with disabilities to communicate effectively with you, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact the Civil Rights Coordinator.

If you believe that the Claims Administrator/Insurer has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with: Civil Rights Coordinator, P.O. Box 22492, Pittsburgh, PA 15222, Phone: 1-866-286-8295, TTY: 711, Fax: 412-544-2475, email: CivilRightsCoordinator@highmarkhealth.org. You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Civil Rights Coordinator is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at https://ocrportal.hhs.gov/ocr/portal/lobby.jsf, or by mail or phone at:

U.S. Department of Health and Human Services
